***Diacyclops biwensis*, a New Cyclopoid Copepod (Crustacea) from Lake Biwa,
Japan**

Teruo Ishida

Abstract. A specimen of *Diacyclops* from a reed bed in Lake Biwa is peculiar in its 2-segmented endopodites of legs 1–4. I describe it herein as *Diacyclops biwensis* sp. nov.

Key words: Taxonomy, copepod, *Diacyclops*, Lake Biwa, Lake Baikal.
